Kansas 4-H is the youth development program for K-State Research and Extension. Through 4-H's educational mission, we help youth to learn by doing. In 4-H, we are committed to providing positive experiences for as many young people as possible. While 4-H is a network of families that grows great kids, it is more than that. 4-H helps youth to learn life skills and to reach their full potential in becoming engaged adults who make valuable social and economic contributions in their communities.

Please RSVP by 10am on the Monday before each meeting....there must be at least 5 attending! RSVP to the Extension Office.
