

We're always thinking about the health and safety of our community, our community events, and our community members and that's why we've decided to make this year's event an exhibitor-only fair with modifications. That unfortunately also means there will be no special contests, no meals, no entertainment, and the fairgrounds will be closed to the public. We're just as heartbroken as you are, but we look forward to inviting your family back to the fair next year for more fan favorites, unique foods, and the best performers and entertainment.

The Finney County Fair Board and the Finney County Extension staff have been working hard and doing our very best with preparation for this year's fair and we appreciate your cooperation and understanding.
