

WINE BOTTLE BAG

Materials:

- 1- 12" x 16" piece of fabric
- 1- 12" x 16" piece of coordinating fabric
- Ribbon, lace, trim etc.

Directions:

1. Fold each piece of fabric right sides together the long ways so that each piece measures 6" x 16".
2. Then sew down the long raw edge and the bottom raw edge using a 1/4" seam allowance.
3. Leave an opening on the long side of the lining. This will be used for turning the bag.
4. Pinch the two corners (one at a time) and fold them over the seam at the bottom of the bag.
5. Measure 1" from the tip of the corner and sew horizontally across the corner. Do this on both corners.
6. Clip both corners off making sure not to cut through the seams you sewed together earlier.
7. Flip the fabric that will be the outside of your wine bag so that it is right side out.
8. Place the outer fabric inside the lining fabric so that rights sides are together.
9. Sew $\frac{1}{4}$ " seam along the top of the bag.
10. Using the opening in the lining, turn the bag.
11. Tuck the lining into the outer bag.
12. Tie the top closed with a piece of lace, trim, ribbon or twine.
